DANIEL ROCHA

IT & Cybersecurity Support Specialist | Technical Support Engineer | ISC2 CC

San José, Costa Rica | | danielrocha_29@icloud.com

LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

IT and Cybersecurity support professional with many years delivering support for production banking, PKI, and enterprise environments. Skilled in incident management, root cause analysis, application and server support, database troubleshooting, and identity and access management aligned to Zero Trust principles. Hands-on with SSL/TLS, Windows Server and Linux, SIEM and log analysis (Splunk, Wireshark), and AI-driven automation. ISC2 CC and Cisco CyberOps Associate certified; completing a B.Sc. in Cybersecurity.

PROFESSIONAL EXPERIENCE

SSL.com | Contract — Remote

Senior Technical Support Engineer | *March 2026 – Present*

- Support SSL/TLS certificate installation, configuration, and renewal across Apache, Nginx, IIS, and Tomcat web servers in production environments.
- Troubleshoot certificate lifecycle issues: CSR generation, private key mismatches, keystore configuration (JKS/PKCS12), and HTTP/DNS domain validation.
- Advise clients on certificate types (IV, DV, OV, EV), PKI best practices, renewal automation, and CA/Browser Forum compliance.
- Deploy YubiKey-based certificate provisioning for secure authentication and identity management, and escalate complex SSL/TLS incidents cross-functionally.

Infinite Computer Solutions | Escazú, Costa Rica — Hybrid

Senior Technical Support Engineer II (Banking Applications) | *May 2025 – March 2026*

- Delivered Level 2 support for Fiserv Integrated Teller across multiple financial institutions, safeguarding production stability and business continuity.
- Performed advanced troubleshooting of application behavior, installations, configurations, and Windows Server issues affecting teller operations.
- Served in on-call rotation resolving production database incidents, using SQL queries and log analysis to remediate application-level failures.
- Installed, configured, and maintained application servers, supporting deployments and environment setup for client banking systems.
- Built an internal AI-based support assistant that improved resolution quality, reduced average handling time, and accelerated new-hire onboarding.

Movate | Heredia, Costa Rica — On-site

Technical Support Specialist | *November 2024 – May 2025*

- Resolved POS software and hardware issues across system configuration, connectivity, and device performance, minimizing client downtime.
- Managed user accounts, permissions, and access rights under Zero Trust principles, strengthening access control posture.
- Applied structured diagnostics, system testing, and root cause analysis to eliminate recurring incidents and improve reliability.

INDEPENDENT CONSULTING

Independent IT & Cybersecurity Consultant | Costa Rica — Remote / On-site

Freelance | *2024 – Present*

- Provide end-to-end IT support for small business clients: endpoint configuration, network setup, server installation, and system troubleshooting.
- Conduct security assessments and hardening engagements, applying access control, patching, and Zero Trust practices to reduce attack surface.
- Manage the full client lifecycle — scoping, remediation, documentation, and follow-up — alongside full-time employment.

EDUCATION

Universidad Fidélitas | B.Sc. in Computer Systems Engineering – Cybersecurity | Expected April 2027

CTP Santo Cristo de Esquipulas | Technical High School Diploma | February 2018 – August 2022

CERTIFICATIONS & TRAINING

ISC2 Certified in Cybersecurity (CC), ISC2 (Jan 2026) • **CyberOps Associate**, Cisco (Jan 2026) • **Splunk Fundamentals**, Splunk (Nov 2025) • **Cloud Computing Fundamentals**, IBM (Jun 2025) • **Junior Cybersecurity Analyst**, Cisco (Apr 2025)

TECHNICAL SKILLS

Security: SSL/TLS, PKI, OpenSSL, Certificate Lifecycle Management, YubiKey / Hardware Security Keys, Identity & Access Management, Zero Trust, SIEM, Incident Response, Log Analysis

Platforms & Tools: Splunk, Wireshark, Microsoft SQL Server, Windows Server, Linux, Microsoft 365, Active Directory, Bomgar (BeyondTrust), Apache, Nginx, IIS, Tomcat, Cloud

Other: Python, SQL, Networking, ITSM / Ticketing & CRM Platforms, Technical Documentation, AI Implementation & Automation, Process Optimization

Languages: Spanish (native) • English (professional working proficiency)
